Team ID :	PNT2022TMID27580
Project Title :	Smart Lender - Applicant Credibility Prediction for Loan Approval
DATE:	25/10/2022

Minutes of meeting -Sprint 1

24/10/2022-Meeting -1

1. We have gone through various datasets and analyzed the data sets.
2. Finalized the loan_prediction.csv dataset that we have uploaded in the git hub.
3. Discussed how to process the data.
4. Separated the tasks among our team members.

25/10/22-Meeting 2

1.Loaded the data set ,
2.Discussed about handling the Null values
3.Handled the Null values.
4.Treated the null values
5.Handled Categorical values

27/10/22-Meeting 3

1.Loaded the data set.
2. Discussed how to scale and balance the data.
3.Discussed how to visualize the data
4..Separated the tasks among our group members.
5.Splitted the dataset into train data and test data.

28/10/22 Meeting 4

1.Univariate analysis of the data set is completed.
2.Bivariate analysis of the dataset is completed
3.Multivariate analysis of the dataset is completed.
4.Descriptive analysis of the dataset is completed
